

CALL TO ACTION!

Elect Ellison Chair of the Democratic National Committee

We are at a crossroads. The DNC will choose a new leader for the Democratic Party in February. Will the DNC continue with unethical practices, elitism and catering to big donors? Or will the DNC return to when they were the voice of the working class voters?

One person has a plan to provide the leadership that we want and need: Keith Ellison.

Keith Ellison has a proven history of grass roots organizing and small donor support that the National Democratic Party desperately needs. In addition, Keith's plan includes:

- More than a 50 state strategy: a 3,143 COUNTY strategy
- Providing state and county level organizers with research and technology
- Focusing on low-dollar fundraising
- Placing importance on transparency
- Two-way communication (Wouldn't that be refreshing?)
